

Dates for new interactive RTFC Auctions

The new improved interactive auction took place on 20th June.

The new model has the attraction of facilitating greater price discovery and has received excellent feedback.

As well as auctioning their RTFCs already issued by the DfT, sellers are now able to sell certificates to be issued at a later date and can also revise reserves, if necessary, during the auction. Buyers have the ability to offer prices to sellers lower than the set reserves, a bid and offer type approach.

Over 20 million RTFCs were offered for sale with prices starting from 12.75p however no bids were matched and consequently no sales were completed.

Remember the RTFC year 4 deadlines are approaching and if you are short of certificates you will be charged the 30p buy out price. To avoid any shortage of year 5 RTFCs you can purchase these in advance from the auctions now.

The next auctions are **Tuesday 24th July and Thursday 23rd August.**

If you have any certificates to trade or need any further information please contact Melanie Reay on 0191 245 7330.

email: info@nfpas.co.uk or visit: www.nfpas-auctions.co.uk

The next e-TOC auction is on Tuesday 24th July 2012.

Notes : NFPAS Auctions also run on-line auctions for the sale of Renewable Obligation Certificates (e-ROC) and renewable electricity (e-POWER) Visit www.nfpas-auctions.co.uk for more details.
